

Auto Shoe Shine / Polish Machines

ASPD1

ASP-G5

ASP-G3

The Auto Shoe Shining Machine is operated on the infrared system. On inserting your shoe, the sensor is activated and the soft brush starts rotating automatically, removing dust from your shoe. Press the shoe against the nozzle of the cream polish dispenser and hold it under the black or brown brush. In just 30 seconds, you have your shoes well polished, shiny and sparkling. The machine is available in three types :
